## EPM TAS QUERIES

### Queries:

#### *Accrual Earnings Query (CT\_CORE\_TAS\_ACCRUAL\_ERN)*

The Accrual Earnings query displays leave earnings and balances for an employee. Query prompts by Employee ID.

#### *Annual Attendance Query (CT\_CORE\_TAS\_ANNUAL\_ATT)*

The Annual Attendance query returns time and attendance records for an employee. Query prompts by Employee ID. The results mimic the Annual Attendance Report.

#### *Attendance Accruals Query (CT\_CORE\_TAS\_ATT\_ACCRUALS)*

The Attendance Accruals query displays an employee's leave accrual earnings along with his or her time and attendance entries. Query prompts by Employee ID.

#### *Available Hours Query (CT\_CORE\_TAS\_AVAIL\_HRS)*

The Available Hours query returns employee master profile information including leave balances.

#### *Employee Name Query (CT\_CORE\_TAS\_SEARCH\_BY\_NAME)*

The Employee Name query is used to determine if an employee has more than one Employee ID. Query prompts by Name.

#### *Social Security Number Query (CT\_CORE\_TAS\_SEARCH\_BY\_SSN)*

The Social Security Number query is used to ascertain an employee's Employee ID. Query prompts by Social Security Number.

#### *Unique Attendance Records Query (CT\_CORE\_TAS\_UNIQUE\_ATT\_RECS)*

The Unique Attendance Records query attempts to eliminate duplicate attendance rows for an employee.

**Warning:** It is possible an employee has duplicate time entries that are valid.

For example, if an employee worked eight hours of overtime on one day, their time could have been recorded as 2 – four hour overtime periods.

***War Service Query (CT\_CORE\_TAS\_WAR\_SERVICE)***

The War Service query returns War Service for an employee.
