

Running the Corrupting Catalog Items Ad Hoc Process

Step	Action
1.	Navigate to the Catalog Management > Catalogs > Corrupting Catalog Items page. Click Search to find an existing Run Control or if it is the first time running the report, click the Add a New Value tab. 
2.	Enter CORRUPT_CAT_ITEM into the Run Control ID field.
3.	Click the Add button. 
4.	Enter CM_2157_1004249 into the Item ID field.
5.	The user can click the Add a Row button to process multiple items at the same time.
6.	Clicking the Save button saves the Run Control including Items that have been added. This can be useful if the user wishes to add items and not process immediately. Click the Save button. 
7.	In this example, click the Run button to run the process now. 
8.	Click the OK button. 
9.	Click the Process Monitor link. 
10.	Click the Refresh button until the Run Status is Success and the Distribution Status is Posted. 
11.	Click the Details link. 
12.	Click the View Log/Trace link. 
13.	Click the Return button. 
14.	Click the Message Log link. 
15.	The Message Log displays a summary of how many rows in what tables were updated in this process instance. Click the Explain button on a row for more details.
16.	End of Procedure.
