

Updating Item Information

Step	Action
1.	Navigate to Items > Define Items and Attributes > Units of Measure page Enter CM_2157_540198 into the Item ID field.
2.	Click the Search button. 
3.	Click the Add a new row at row 1 button to add a new unit of measure for the item. 
4.	Click the View All link to view both rows. 
5.	Enter CA into the Unit of Measure field for the new row,
6.	Enter 12 into the Conversion Rate field.
7.	Click the Quantity Precision list. 
8.	The value in the Quantity Precision fields must be the same for all rows. Use the value for the row in which the Default Stocking UOM check box is selected. Click the Decimal list item. 
9.	Click the Select All button to have the system select all three Unit of Measure Types for the Unit of Measure being added. 
10.	Click the scrollbar to move to the bottom of the page.
11.	Click the Save button. 
12.	End of Procedure.
